results, Virus structure and classification. A

major branch of virology is virus

classification. Viruses can be classified

according to the host cell they infect: animal

viruses, plant viruses, fungal viruses, and

bacteriophages (viruses infecting bacterium,

which include the most complex viruses).,

The history of virology "the scientific study

of viruses and the infections they cause

began in the closing years of the 19th

century. Although Louis Pasteur and Edward

Jenner developed the first vaccines to

protect against viral infections, they did not

know that viruses existed., This page
